Bootcamp on web development for IoT

- 1. TITLE OF THE EVENT:** Bootcamp on web development for Internet of Things (IoT)
- 2. DATE OF THE EVENT:** 09-12-2024 to 14-12-2024
- 3. DURATION OF THE EVENT:** 6 days
- 4. OBJECTIVE OF THE EVENT:**

The objective of this program is to equip participants with the skills to design and develop responsive web applications that interact with IoT devices. Bootcamp provides hands-on experience in building dashboards for real-time data visualization, managing device communication using web protocols, and integrating APIs for seamless control. Participants will learn front-end and back-end web development, database management, and security considerations for IoT applications.

It fosters innovation by encouraging practical projects, enhancing problem-solving abilities, and preparing learners for real-world IoT-based web solutions in various industries.
